Career Objective

Enthusiastic and detail-oriented backend developer with strong foundational skills in Java, Spring Boot, Firebase, and REST API development. Currently pursuing MCA at Reva University, with a passion for building efficient backend systems and learning modern backend frameworks. Seeking an entry-level position or internship where I can contribute to real-world backend projects, enhance my technical expertise, and grow within a dynamic team environment.

Technical Skills

- **Programming Languages:** Java, Python, C
 - **Frameworks & Backend:** Spring Boot, Firebase, REST APIs
 - **Database:** MySQL
 - **Tools & Technologies:** Git, GitHub, MySQL Workbench
 - **Core Concepts:** Object-Oriented Programming (OOPs)
-

Projects

AI Chatbot with Model Switching

- Developed a full-stack AI chatbot using React, Spring Boot, and Firebase with support for dynamic model selection (GPT-3.5, GPT-4, etc.) and customizable behavior settings. Integrated Firebase for real-time session management and user authentication.

University Management System

- Built a web-based management system using React, Spring Boot, and MySQL to handle student records, course scheduling, and role-based access. Enabled full CRUD functionality with REST APIs and responsive UI.

Online Car Buy & Sell Platform

- Created a car trading web app using JSP, Servlets, and MySQL with features like user login, car listings, and transaction handling. Ensured secure data handling and responsive frontend using HTML/CSS/JavaScript.
-

Certificates

- **SSIP Hackathon 2022** [\[View Certificate\]](#)
– Participated in a state-level hackathon focused on web development, creating an innovative solution.
 - **SSIP Hackathon-2023** [\[View Certificate\]](#)
– Designed and implemented a government website project, showcasing expertise in front-end and back-end development.
-

EDUCATION

Master of Computer Applications (MCA)

Reva University, Bangalore
2024 – 2026 (Pursuing)

Bachelor of Science in Computer Application & Information Technology (B.Sc. CA & IT)

Hemchandracharya North Gujarat University, Patan, Gujarat
2021 – 2024
